

Garden Planning Consultation

Mica Landscapes provides garden planning consultations to homeowners.

Consultations include a full walkthrough of the property. A written recommendation will be sent after the walkthrough with suggestions for lawns, irrigation and garden beds. A step-by-step plan for all areas will be provided with a full materials and plant list.

- Consultations cost \$250.
- Any plant material ordered off the suggested list from Mica Landscapes will be discounted 10% of retail value and can be delivered to the property.
- Consultations are not an estimate for services, but should the homeowner decide to have Mica Landscapes do a portion of any recommended work, the consultation fee may be put towards those services.
